

Tyler Pipe Company

Tyler Pipe the nation's largest producer of cast iron soil and utility pipe and fittings has an immediate employment opportunity for an:

Engineering Specification Team (EST) Representative

in our Northeastern Region. This is a salaried non-commission position with annual compensation commensurate with experience.

Position requires 3 -5 years of hands-on technical experience with the installation of cast iron plumbing or drainage products or compatible experience in the plumbing trades. A related 2-year or 4-year degree would be a plus, as would sales experience in the plumbing industry.

The EST Representative is responsible for calling on plumbing engineers, code officials and product installers throughout their Region to build relationships and provide technical assistance with the installation or product issues concerning soil pipe, couplings, gaskets, drains, etc. The EST Rep will also provide technical and sales assistance to the Region's Sales Representatives. Extensive travel required throughout the New England States, Massachusetts, Pennsylvania and West Virginia. Must be a self-starter with a good work ethic. The successful candidate will also reside within their region.

Tyler Pipe offers an excellent benefits package including Medical & Dental Insurance, Life and AD&D insurance, 401(k) plans, and a company vehicle.

Interested candidates should submit resume with salary requirements to:
