RE: Price change for Utility Fittings and Accessories Effective November 5, 2007

Dear Valued Customer,

Due to continued rising costs, especially within our off shore operations, we find it necessary to increase pricing on all Utility Fittings and Accessories effective November 5, 2007.

We will retain our current List Price, LP-5072, but the invoice multiplier will increase as follows from the previous levels:

Blended Utility Fitting and Accessory Orders:	+0.020
Domestic Utility Fitting and Accessory Orders:	+0.010

The new invoice multipliers will apply to all orders received on or after November 5, 2007. Any order received prior will be price protected provided no shipping restrictions apply.

Please provide your local Tyler/Union territory manager with documentation regarding any existing quotations and municipal bids before November 2, 2007. Job quotes will be honored for 60 days. Municipal contracts will be honored through the term of the contract not to exceed one year provided the documentation includes quantities and deliver dates.

As a convenience to our customers, it is our intention to address future price actions with adjustments to invoice multiplier levels rather than by publishing List Price changes.

We thank you for your business and as always we remain committed to providing you with quality products at competitive prices.

Sincerely,

A handwritten signature in black ink that reads "Jerry Jansen". The signature is written in a cursive, flowing style.

Jerry Jansen
