RE: NO HUB COUPLINGS

Dear Tyler Pipe and Coupling distributors,

Tyler Pipe and Coupling will implement a price increase of approximately 7% on Tyler No Hub Couplings effective February 27th, 2017. This increase is being made due to the increase in raw material prices.

The new price sheet is labeled:

LP-CPLG-2017, replaces LP-CPLG-2015

The new price sheet will be posted on our website shortly. www.tylerpipe.com

All orders placed prior to February 27, 2017 must be for immediate release.

If you have any questions, please contact your Tyler Pipe Regional Manager. Thank you for your business and support.

Respectfully,

Sterling Bowman
Vice President
Tyler Pipe Company
McWane Plumbing Group
